

FELTWORX

RECYCLED WOOL FELT CARPET UNDERLAY

FELTWORX recycled wool felt carpet underlay is manufactured in New Zealand from 100% recycled wool carpet – which would otherwise be headed to the landfill.

Due to the fact that the underlay is made from recycled carpet, the colour and surface feel can vary slightly from roll to roll, but this in no way affects the performance of the product. In fact, every roll is QC (quality control) inspected and guaranteed to offer reliability and durability for the life of the carpet.

FELTWORX has been designed for the discerning consumer wanting a 100% natural underlay void of polyurethane foams and is intended for use under all carpet types.

Benefits:

- 100% recycled product
- 100% recyclable
- Environmentally-friendly
- Is incredibly durable and long-lasting
- Resists heavy footfall
- Is comfortable underfoot

PRODUCT CODE: FCC1018

Specifications:

Roll Width: 1.8m

Roll Length: 10m

Thickness: 10mm +/- 1mm

Weight: 120kg/m²
