LATEST NEWS - NEW RELEASES - SPECIAL DEALS

JANUARY - MARCH 2022

## FROM THE DESK:

Dear Clients,

Welcome to 2022 – we hope you’ve had a safe and relaxing holiday and are ready to launch into the working year. Let’s hope all things Covid settle down and we can return to a more normalized lifestyle.

Late 2021 saw Duncan McDonnell return as our Waikato, BOP and Central North Island Sales Representative. Duncan was previously in this position 2013 – 2015 and returns with six more years of sales experience under his belt. We are very happy to report our business has grown significantly within this region in the last few years thanks to the efforts of Jason and Phil in our Hamilton and Tauranga Trade Depots and the wider Gilt Edge Team.

We have three Uzin Promotions contained within together with a feature on our new Bullystripper. European manufactured, this stripper has several features and benefits your Gilt Edge Rep will be only too happy to discuss. We have two demo units – as always trialing machinery yourself is generally best.

Crain Tools USA are held in high regard by installers worldwide and we are proud of our 45 year association with them. Traditional in their approach, they innovate when they see a real need and have recently launched three new seam cutters designed to make the task easier, faster, and more accurate for you on certain carpet types.

Best regards  
Chris Dickey  
Managing Director

Duncan McDonnell

# BULLYSTRIPPER

- 3 HP (2.2 kW), 240V/50Hz motor
- Weight: 14.5 kg
- Working width: 210 mm
- Use T-bar handle in upright position for floors
- Remove T-bar handle to use as a hand tool
- Comes complete with foam lined aluminium case.

CODE: RB1714575

## DESCRIPTION

Designed as a tool to remove floor coverings such as tile, carpet, linoleum, CV, and PVC, the ROLL Bullystripper 210mm scraper is defined as a multi-purpose surface preparation machine excelling on small, medium, and large-sized projects. Stairwells, as well as tight and compact areas, are easily tackled with this scraper machine.

With the ability to use the T-bar handle in a pleasant upright position for flooring or to remove the T-bar handle in order to use the machine like a hand tool, it is clear why the ROLL Bullystripper 210mm scraper is considered one of the most versatile and cost-effective surface preparation scrapers in today's market.

CODE: RB1714581 PLUS blade 1.5mm x 60 x 210 hardened.

**\$45.00+GST**

CODE: RB1714592 U-Blade for soft floors.

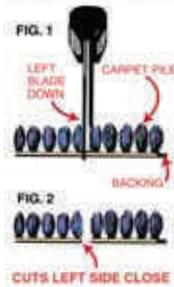

# CRAIN Seaming Cutters

**NEW**

**LONGER BLADE REMOVAL HOLES**

## No. 301 Cushion Back Cutter

Designed especially for trimming and cutting superdense 5/64" gauge foam or sponge-backed carpets. Double 30° angle blades cut either side of the row close and clean to help produce better seams. The long, slender front guide is beveled at the bottom, making it easy to stay in a row. Made from nickel-plated steel.

Trims close to the carpet pile on the right (Figure 1). On the left side, use the opposite blade (Figure 2). Close cuts on both seam edges produce better seams.

Order No.	Description	Weight	Blades
301	Cushion Back Cutter	8 oz.	306C, 308C, 309C

**NEW**

**NOTCHED ROW GUIDE  
FAST OFFSET BLADE CLAMP**

## No. 302 Cushion Lock Cutter

This cutter has a notched row guide that follows rows better, particularly on hydrashift and Berber carpets. The offset blade clamp allows fast blade changes without removal of the fastener. The 30° blade angle cuts cleanly.

Trims close to the carpet pile on the right (Figure 1). On the left side, use the opposite blade (Figure 2). Close cuts on both seam edges produce better seams.

Order No.	Description	Weight	Blades
302	Cushion Lock Cutter	8 oz.	306C, 308C, 309C

**NEW**

**3 in 1 SEAM CUTTER**

## No. 290 Seam Cutter Plus

This cutter excels on zigzag ("hydra-shift") carpets including commercial loop pile and Berbers! The blade runs directly behind the center row guide. This keeps the blade away from the offset yarns, preventing yarns from being sheared, which causes unsightly seams. The wide base keeps the blade perpendicular to the yarns, further reducing nap shear. The row guide can be retracted fully into the base for top cutting. The tool can also be used as a trimmer to precisely trim carpet up to Z-bar or vinyl molding.

Order No.	Description	Weight	Blades
290	Seam Cutter Plus	1.2 lb.	295C, 308C, 309C

**No. 366**

**No. 367**

## No. 366 Commercial Row Finder

## No. 367 Residential Row Finder

The smooth, rounded notches of these ultra-straight spring steel row finders open rows in difficult carpets. The No. 366 has rounded ends that can easily enter the rows of Berber and loop pile commercial carpets without catching loops. The No. 367 has pointed ends that can more easily enter the rows of dense cut pile or plush carpets. Once these tools find a row, they can be moved back and forth in a sawing action to open the row. After use, a seam cutter is able to follow the row with reduced shearing of yarns.

Order No.	Description	Weight
366	Commercial Row Finder	1
367	Residential Row Finder	1
