LATEST NEWS - NEW RELEASES - SPECIAL DEALS

NOVEMBER 2018 - JANUARY 2019

## FROM THE DESK:

Welcome to the November-January edition of the Gilt Edge Industries newsletter.

This is our last issue for 2018 and includes a number of featured products and information on some of our new releases. In this issue we are featuring our new Crain wood and carpet tile cutters, as well as announcing our new moisture cured polyurethane coatings partner Urethane Coatings. It also features the new re-branding of our Masonite underlay and features other flooring products and specials we hope you find interesting.

We have also recently produced a new Flooring Adhesives Catalogue that will be coming to you all soon with our entire range of adhesives for different floor types.

Since this is our last edition for the year we want to thank you all for your business over the 2018 period and wish you all a very Merry Christmas and a Happy New Year.

Please note our branches will be closing on December 21st 2018 and reopening on January 7th 2019.

We hope you enjoy the read.

Best Regards  
Gary Clark  
National Sales Manager – Gilt Edge Industries Ltd.

PLEASE NOTE that 20 Litre pails of Protect Crete Densi-Proof are now a run out line, to be replaced with new 15 Litre pails to begin next month.

20 Litre pails are still available while stocks last.

# PRODUCT NOTICE

## UZIN PE460 New 2-part Epoxy Primer and Moisture Barrier

Gilt Edge Industries Ltd are pleased to bring to the NZ market a new version of the highly successful Uzin PE460 2-part Epoxy Primer and Moisture Barrier system. This release coincides with the withdrawal of the Uzin PE480 2-part Epoxy Moisture Barrier system from the local market.

### Key features and benefits:

- Fast curing capability. Curing can be accelerated with Uzin Epoxy Accelerator.
- Greater versatility than Uzin PE480 2-part Epoxy Moisture Barrier.
- Exceptional surface finish.
- Provides a reduction in inventory. Epoxy Primer and Moisture Barrier.
- Better absorption into concrete substrates.
- Greater certification classification – IMO and GEV Ecode EC1R plus.
- Very low VOC rating compared with Uzin PE480.
- Tolerant of application at lower temperatures.
- Stronger cured strength when used as an epoxy mortar when mixed with blended sand.

CODE 10kg: UZPE46010

## NEW NAPLOCK BARS

AVAILABLE NOW

### Naplock Bars Upgrade.

Made in NZ the NEW

Pinned Naplock bars now have:

- Greater total catchment: 30% more pins
- Greater holding power: Wider pins
- Greater initial grab : Upright and sharper pin points.

This is what Andy Pearce (Andy's Flooring 30+ years as a carpet layer) says about the new Naplock bars

*"The improvements make the new Gilt Edge Naplock bar hands down the best bar I have ever used"*

## COMMERCIAL PROJECT HIGHLIGHTS

### Strength and Lightweight Combined in Bespoke Flooring Specification

The Christchurch Town Hall is currently in the final stages of a structural upgrade and restoration following extensive damage to the building in the 2011 earthquake. As part of the rebuild, Gilt Edge Industries Ltd and Dominion Carpets specified a unique flooring solution for the Limes Room — one of the town hall's popular conference and function rooms.

**CHALLENGE:** For the upgrade of the 560m<sup>2</sup> Limes Room floor, architects opted to reuse the original parquet flooring, but first the current flooring substrate had to be repaired. With engineers concerned that use of a conventional concrete overlay would create excessive loading on the structure, they decided to use a lightweight screed as the solution

**SOLUTION:** Gilt Edge Industries Ltd and Dominion Carpets created a bespoke flooring specification for the project, which was chosen as it incorporated a lightweight screed, minimised weight and provided strength, all while enabling flooring installers to relay the original parquet flooring directly on top of the levelling compound.

The specification comprised a layer each of Uzin 460 Epoxy moisture barrier and Uzin 280 Primer, followed by the application of the Uzin SC914 Turbolight lightweight screed and a 10mm capping layer of Uzin 170 Level-star self-levelling compound. A perfect solution for substrate correction, the complete lightweight system has integrated load-bearing capabilities, which effectively added strength to the lightweight screed below. Re-laid directly on top of the Uzin 170 Level-star compound, the original parquet completes the flooring build-up and adds a final touch of elegance to the room.

**RESULT:** Craig Kennelly, South Island Sales Manager of Gilt Edge Industries Ltd and Andrew Tomlinson are extremely pleased with the specification and installation. "It was a real specialised job and Conprep who applied the screed did an absolutely amazing job," he says. "Everyone is happy with the finished project."

With the Limes Room now ready to once again provide a sophisticated venue for functions and conferences, the Christchurch Town Hall is one step closer to officially reopening in early 2019.

# WOOD & CARPET TILE CUTTERS

No. 673 - 330mm Wood Cutter

No. 675 - 610mm Carpet Tile Cutter

**AVAILABLE NOW**

**ARRIVING SOON!**  
Last shipment sold out!!!

CODE: 673

- Cuts up to 19mm Solid Hardwood, Engineered wood, Laminate and LVT
- Lay faster, cut where you work
- No power required
- No noise
- No dust
- Save time walking to and from dropsaw
- No sawblade sharpening
- Includes wheels allowing for easy movement on the floor where you are working

CODE: 675

- Cuts carpet tiles, vinyl tiles LVT planks and rubber tiles
- Handles material up to 18mm thick
- Built in wheels allow it to be moved easily from a kneeling position
- Movable fence and tile guide can be set for repetitive straight or diagonal cuts

## Masonite is now rebranded

- Exclusive to Gilt Edge Industries Ltd
- Same product - Different name
- Same manufacturer
- New and improved product

**UNIFORM SURFACE:** This grainless, knotless product smooths irregularities in the subfloor and provides a flat, uniform and hardy surface for textile or timber floor coverings.

**SUPERIOR STRENGTH:** Made from tempered hardboard Evowood Underlay is more durable than other thin board substitutes and will not crack, split or splinter.

**RESILIENT:** Evowood Underlay is less likely to leave residual indentations and is more effective in reducing subfloor dimensional movement than any other underlay product.

**GREEN:** All Evowood products are formaldehyde free, carry an e-zero emission rating, and are manufactured in accordance with FSC regulations using natural binders.

**MOISTURE RESISTANT:** The tempering process ensures that this product has excellent water resistant properties to protect both the subfloor and floor coverings from damp.

Code: IMA5 Size: 5mm x 1220mm x 915mm sheets
