

ON THE FLOOR

LATEST NEWS - NEW RELEASES - SPECIAL DEALS

OCTOBER - DECEMBER 2021

FROM THE DESK:

Dear Clients,

Welcome to our final edition for 2021 . The last few weeks have been challenging for everyone – let’s hope we can all trade through our traditionally busy last quarter with as few road blocks as possible.

We are pleased to launch our, always popular Xmas Ham Promotion (see page 3). We source high quality NZ ham on the bone - one of these feeds a large family for several days. A great Xmas lunch option or gift for clients, employees or family.

Laminate/floating floor products continue to gain traction in our market and we have increased our range of Crain Tools to assist installation, together with various new hybrid transition profiles detailed on the back page . All proudly extruded and anodized in New Zealand.

Our latest shipment of T Shirts and Caps have arrived in time for summer so please tap your Gilt Edge Rep or Depot Manager on the shoulder for one.

Best regards
Chris Dickey
Managing Director

COMMERCIAL PROJECT HIGHLIGHTS

Protect Crete X100 Green Cure Project Detailer 2021

Project Background and Description

Concrete Consultant Specialists Limited required a highly effective cure, densify and dust reduction concrete treatment for approximately 2,400m² of exterior storage yard at the new National Mini Storage facility in Hobsonville, Auckland. Protect Crete X100 Green Cure was selected by Tapa to suit his client’s requirements.

Project Scope

Concrete Consultant Specialists Director Tapa Henry selected Protect Crete X100 Green Cure as a cost effective and trusted solution for his client. Having had great results with other projects, Tapa applied X100 Green Cure to the freshly placed concrete as soon as the surface was trafficable, and prior to the cutting of the control joints.

Project Deliverables: X100 Green Cure

- Will cure concrete equal to water pond curing.
- Virtually eliminates plastic cracking.
- Low cost cure regime.
- Hardens surface and reduces dusts.
- Reduces shrinkage.
- Retards efflorescence.
- Zero VOC, environmentally friendly, user safe.
- Compatible with most flooring and coating systems.
- After trade friendly.
- Minimum site disruption, trafficable after 2 hours.

INTRODUCING OUR CRAIN LAMINATE /TIMBER FLOOR TOOL RANGE

No. 673 13" Wood Cutter

Cuts plank flooring up to 3/4" thick, including a variety of solid hardwood, engineered wood, laminate, and LVP planks. Built-in wheels allow it to be easily moved from a kneeling position. The movable fence allows straight or 45° diagonal cuts at different areas under the 13" blade for extra blade life. Max. plank hardness: 1290 Janka scale. Max. plank width: 13"

No. 565 18' Strap Clamp No. 566 Bullnose Adaptor

Clamps and holds plank flooring across widths up to 18 feet. Strap coils inside the housing, out of the way of the work. Long base works under toe spaces. Available Bullnose Adaptor clamps across stair treads.

Crain Tapping Blocks

Made in two sizes from thick solid plastic blocks. Both have relieved edges on a side and an end. Used to tap the side of the plank to fit the tongue and groove.

Order No.	Description
563	7" Tapping Block
569	11" Tapping Block

No. 576 LVP Angle Tapping Block

Lifts the LVP plank to the angle where it can be tapped and locked tight. Large upper plastic block contacts just below the face of the plank, while a lower plastic contact plate slides to contact the core. Comes with three 1mm shims and two 3mm shims. Works on planks and tiles up to 10mm thick. Shims sold separately for thicker LVP/LVT.

No. 560 "Knuckle Head" Pull Bar

This pull bar features a boxed "knuckle" hammering head that is welded to the body. The width has been increased to reduce body bending, and the length is increased for more working room at the wall.
