6307C6.5mm Champagne

#### Installation

The Hybrid Stair Nosing Trim is ideal for areas where the timber flooring requires a finished edge in stair cases. This trim should be adhered to the floor with a permanent construction adhesive. The timber or laminate is designed to sit just under the outside lip of the trim, leaving room for expansion inside the channel.

#### Maintenance

A regular scheduled maintenance programme prevents build-up of dirt and grease, which will reduce properties of and detract from the overall appearance of the product. Brush down the profiles using a soft bristled brush.

With clean warm water, apply a small amount of a soap-less detergent to a wet green scotch pad and gently clean the surface of the profile along it's width with fresh, clean water and dry with a dry lint free cloth.
