P O Box 7515 Sydenham Phone: 0800 445 833 Fax: 0800 103 649
Email: help@giltedge.co.nz

Reference Code: 6308S6.5mm Satin Silver
6308C6.5mm Champagne

Installation

The Floating Floor Hybrid Transition 6.5mm is ideal for areas where timber flooring is jointing together especially in larger floor areas or where expansion gaps in the substrate are present. This trim should be adhered to the floor with a permanent construction adhesive. Fill the expansion gaps with an elastic filler in places where profiles or skirtings cannot be placed. Is suitable for use in both domestic and commercial applications. The timber or laminate is designed to sit just under the outside lip of the trim, leaving room for expansion inside the channel.

Maintenance

A regular scheduled maintenance programme prevents build-up of dirt and grease, which will reduce properties of and detract from the overall appearance of the product. Brush down the profiles using a soft bristled brush.

With clean warm water, apply a small amount of a soap-less detergent to a wet green scotch pad and gently clean the surface of the profile along it's width with fresh, clean water and dry with a dry lint free cloth.
