

Ramp Edge

BPIR Declaration

Version: V1.02112023

Designated building product: Class 1

Declaration

Gilt Edge Industries has provided this declaration to satisfy the provisions of Schedule 1(d) of the Building (Building Product Information Requirements) Regulations 2022.

Product/system

| | |
|------------|-----------|
| Name | Ramp Edge |
| Identifier | rampedge |

Description

RampEdge is a type of floor transition solution used to create a smooth and gradual slope between two different flooring surfaces.

Made from:

- Milled from High Moisture Resistant MDF (HMR MDF)
- Made from 100% FSC certified trees (Cert. No. SCS-FM/COC-005851)

Available in :

- 5mm thick , 1200mm length , 100mm width.
 - 8mm thick , 1200mm length , 112mm width.
 - 12mm thick , 1200mm length , 145mm width.
-

Scope of use

These ramps are commonly used in areas where a wheelchair or wheeled equipment needs to move between surfaces, or in spaces where a tripping hazard needs to be minimized. Slope ratios meet standards contained in AS1228.1:2009 Design for Access and Mobility. These ramps are suitable for various applications and can be used in both residential and commercial settings. They are commonly used in doorways, thresholds, and other areas where floor height differences exist.

Conditions of use

Installation Method:

- Ensure the sub-floor is clean, dry, sound and free of contamination
- Assess the floorcovering materials and ramping height required • Select your RampEdge ramp to achieve the ramping required
- Measure and cut your RampEdge ramp to fit
- Affix firmly into place using adhesive, screws or nails as appropriate

Contributions to compliance

Building Regulations 1992 - Clause 2B-Durability Heat Bond tape, with only normal maintenance, will continue to satisfy the performance requirements of Building Regulations for 10 years.
