

GRADUS

Hard-wearing

Slip-resistant

Stairtile™

Stairtile is a rubber composite material designed to provide a hard-wearing, slip-resistant finish for stairs and floors

Stairtile

Gradus is a market leader in stair safety solutions and offers the widest choice of stair profiles designed to help create a safe and inclusive environment, balancing the values of safety, performance and aesthetics

Due to its durability, it can be installed in a wide range of applications and will withstand heavy traffic

Retail

Car Parks

Transport

Stairtile can be used in ramps as a robust and safer solution to slip-resistant tape that is likely to require routine replacing, saving on cost and minimising disruption

Ramp

Stairs

Stairtile is suitable for use in both internal and external applications

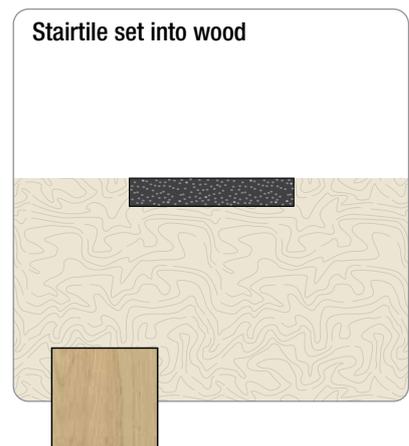

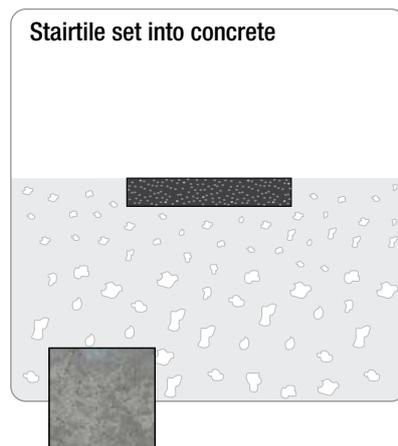

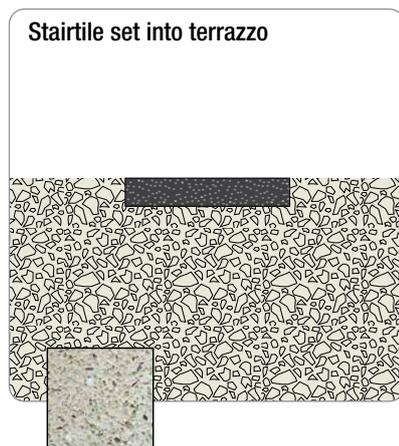

Internal

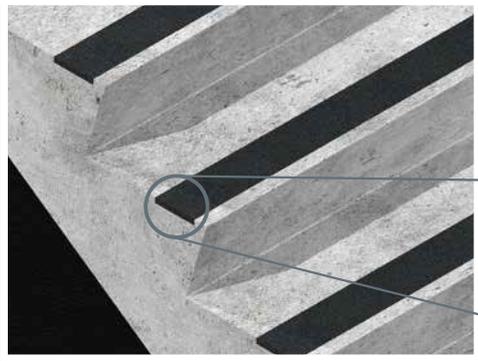

External

It can be supplied as a complete stair covering or as an insert set into terrazzo, wood and concrete

Stairtile

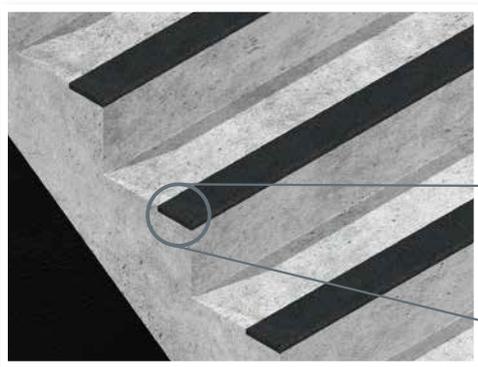

Stairtile - OT25F & OT38F

Designed for retrofit situations to provide slip-resistance near to the edge of the step edge.

OT25F

OT38F

Stairtile - OT51 R

Designed to be rebated into the step edge to provide a rounded, slip-resistant edge to the step.

OT51R
